PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring Full-Stack Web Developer with hands-on experience building responsive, database-driven web applications. Proficient in JavaScript, TypeScript, React, Next.js, Node.js, PHP, Laravel, PostgreSQL, MySQL, MongoDB, and Supabase. Skilled in creating user-friendly interfaces and scalable backend systems through academic and personal projects. A fast learner with strong problem-solving skills and a passion for building quality software.

PROFESSIONAL EXPERIENCE

Korum.io

Feb 2025 – Dec 2025

Video Editor

- Edited and produced engaging short-form and long-form video content for digital platforms, ensuring high visual quality and brand consistency.
- Collaborated with content creators and team members to transform raw footage into polished videos that aligned with project goals and deadlines.
- Applied motion graphics, transitions, color correction, sound design, and visual effects to enhance audience engagement.
- Optimized video content for platforms such as YouTube, TikTok, Instagram, and other social media channels.
- Managed multiple editing projects simultaneously while maintaining efficient workflows and delivering on tight production schedules.
- Organized media assets, maintained project files, and ensured timely revisions based on client and stakeholder feedback.

PapaM's Facebook Page

Jun 2023 – Jan 2026

Video Editor

- Edited engaging short-form and long-form videos for Facebook, increasing viewer engagement and content quality.
- Created dynamic cuts, transitions, motion graphics, subtitles, and sound design to enhance storytelling and audience retention.
- Collaborated with the content creator to develop videos aligned with brand identity and publishing schedules.
- Optimized videos for Facebook by applying platform-specific formatting, thumbnails, and export settings.
- Managed multiple editing projects while meeting deadlines and incorporating feedback efficiently.
- Organized video assets and maintained an efficient workflow for consistent content production.

Bureau of Fire Protection Pulilan

Feb 2024 – Mar 2024

Work Immersion

- Scanned and digitized official documents, ensuring accurate and high-quality digital copies.
- Organized, labeled, and archived physical and electronic records for efficient retrieval and record management.
- Verified document completeness and maintained accurate filing systems to support administrative operations.
- Assisted personnel with document processing, file organization, and other clerical tasks.
- Maintained confidentiality when handling official records and sensitive information.
- Collaborated with office staff to improve document organization and support daily administrative activities.

EDUCATION

BS Information Technology

Aug 2024 – Present

Bulacan State University

- **Frontend:** HTML, CSS, React, Next.js, Tailwind CSS, Bootstrap, Sass
- **Backend:** Node.js, Laravel

- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Supabase
- **Tools:** Git, GitHub, Vercel, Figma

PROJECTS

KuryenTipid Mobile App

- Independently designed and developed KuryenTipid, a mobile application that helps users monitor and reduce electricity consumption.
- Built the application using Kotlin in Android Studio, following modern Android development practices.
- Implemented bill-scanning functionality using OCR technology to extract electricity bill information automatically.
- Developed an appliance scanning and management feature to estimate energy usage and monthly electricity costs.
- Built an intuitive and user-friendly interface focused on accessibility, ease of use, and a seamless user experience.
- Managed the complete development lifecycle, including planning, UI/UX design, implementation, testing, and deployment.

Bloomiq Flower Shop

- Designed and developed Bloomiq Flower Shop, a modern, responsive static website to showcase floral products and arrangements.
- Built the website using HTML, CSS, and JavaScript with a clean, visually appealing, and user-friendly interface.
- Integrated GSAP animations to create smooth page transitions, scroll effects, and interactive user experiences.
- Organized content with intuitive navigation, allowing visitors to easily browse featured flowers and collections.
- Optimized the website for responsiveness, ensuring a consistent experience across desktop, tablet, and mobile devices.
- Applied modern web design principles to deliver a professional, aesthetically pleasing portfolio-style website.

Coffetto Coffee Shop

- Designed and developed Coffetto Coffee Shop, a modern, responsive landing page for a coffee shop.
- Built the website using HTML, CSS, and JavaScript, focusing on clean code and responsive layouts.
- Integrated GSAP animations to create smooth scroll effects, interactive transitions, and engaging visual experiences.
- Designed an intuitive user interface that effectively showcases the coffee shop's menu, brand, and featured products.
- Optimized the website for performance and compatibility across desktop, tablet, and mobile devices.
- Applied modern UI/UX principles to deliver a visually appealing and user-friendly browsing experience.

Stradale Coffee House

- Designed and developed Stradale Coffee House, a modern and responsive coffee shop website.
- Built the website using HTML, CSS, JavaScript, and GSAP to deliver a smooth and interactive browsing experience.
- Implemented engaging scroll animations, page transitions, and interactive UI elements using GSAP.
- Designed responsive layouts to ensure seamless viewing across desktop, tablet, and mobile devices.
- Showcased the coffee shop's menu, featured products, and brand identity through a clean and visually appealing interface.
- Optimized the website for performance, accessibility, and modern web design standards.
